From: *Andre' Beauchamp*

Dear Friend,

You've probably heard all about "internet or affiliate" marketing by now, and how thousands of people are quietly earning a fortune working from home in their pajamas. Do you need to be a marketing expert to be successful online? No, in fact internet marketing is a lot easier than many would lead you to believe.

It is within your reach...

Let me show you just how easy it is.

Introducing...

Internet Marketing Secrets For Newbies: The Video Series

It is not hard to make money online, as long as you know what you are doing. Allow me to give you the benefit of my expertise and experience. I've sold countless products online, and have learned through my successes and failures what works. I created this video series specifically to help people just starting out in the internet marketing field.

There is a right way and a wrong way to market online. (the wrong way would be spending dozens of hours just to make a few bucks. Let me show you how to do it in the fastest manner possible).

I don't want to see you wasting your time doing things the wrong way, that is why I created this video training series.

This is not going to be one of those guides where I try to upsell you on a lot of "extra" services. In fact, I will show you how to setup and promote your affiliate products without spending a dime.

This Video Series Features:

- **A Collection of 19 Professionally Recorded Videos** - This complete video series will teach you everything you need to know about finding a profitable product to sell, and how to promote it.
- **Why Affiliate Marketing is Awesome** - Before you actually start marketing online, I want you to understand the advantages, so you can use them to their fullest extent.
- **How to Find a Profitable Niche** - I don't want you to pick a market just because you like it, a lot goes into finding a niche that will be profitable for you.
- **How to Choose a Profitable Product** - Not every product online is a guaranteed money-maker. I will show you how to pick from the cream of the crop.
- **How to Work With Clickbank** - I will take you through the process of finding a profitable product from the Clickbank Marketplace to promote.
- **The Power of Keyword Research** - If you aren't creating pages that are focused on specific keywords, you are literally taking a stab in the dark at achieving natural search engine rankings. Let me show you how to perform effective keyword research.
- **How to Setup a Free Blog** - You don't need to bother with buying a domain name and hosting, I will show you how to setup a free blog that will do a fantastic job of promoting your affiliate product.
- **How to Create an Optimized Post On Your Blog** - I will take you through the different things you need to do to make your blog and post "optimized" for the search engines. This is really important stuff!
- **How to Promote Your Blog** - I will show you three powerful ways to promote your blog and product for free. These steps are critical if you are to see success.
- **How to Branch Out** - Once you start making money from your first venture, I will offer suggestions for moving to the next level.
