Re: Email Profits

Dear Fellow Marketer,

I'm going to get right to the point.

If you can copy information from a sales letter and paste that information into a template then you stand to make substantial auto-pilot cash with the tool you are about to find out about.

The product is called [Follow-Up Email Creator Pro.](#)

Here's How It Works...

Step 1. You read the questions and fill in the blanks with your answers. In some cases all you are doing is copying and pasting from your product's sales letter.

Step 2. You push the Create button.

Step 3. You view your newly created 21 follow up sales messages.

Step 4. You copy and paste your follow up sales messages to Notepad and make any adjustments. You could add additional language or just keep the messages the way they are.

Step 5. You load the messages into your auto-responder system.

That's it.

The total time to create 21 follow up email sales messages is between 15-30 minutes depending on how fast you can answer the questions.

Imagine how long it would take if you were to manually write all 21 follow up emails by hand.

Now here's some more stuff you could do with Follow-Up Email Creator Pro...

1. You could mix in articles in between your follow up series.

2. You could add value to ANY PLR product in a day or so by simply creating a series of follow up sales messages centered around the PLR product.

3. You could create follow up emails for Click-bank products and generate back-end sales with your auto responder.

4. You could create follow up emails for resale rights products....And on and on.

Here is what one customer had to say...

"Maurice, with absolutely no marketing or ad copy skills, I was struggling for 3 to 4 weeks just to create a single website. Then I found Maurice Smith's '3-Minute Headline Creator' and 'Follow-Up Email Creator Pro'. The headlines have made a huge difference in the drawing power of my online business, and the automatically generated emails have helped me save untold hours of typing and editing follow-ups. With these two incredible tools, I have literally saved days and days! I now get a very compelling website up and running, with my auto responder messages loaded, all in less than an hour! This even makes a rocket scientist excited!"

"Maurice, you sure have cut down on the creative work and left me time to promote my e-book to others. At first I was leery...or overwhelmed, but a few minutes later all fear was gone. The follow-up letter creator was doing it's thing. It couldn't have taken me more than a quarter of an hour to review my e-book's sales page and click the create button. I felt that your Headline Creator was good and knew that this piece of software would be good too! I was right. It didn't disappoint me. If you're squeezed for time...this software package will keep the 'time-thief' handcuffed.
